

PLEASE leave our law alone! I hate telemarketing calls! I can't afford or don't want to have to pay for caller id to identify which phone calls I do or do not want to answer. They shouldn't be calling my house to begin with, unless I have asked them to. The majority of the phone calls I use to receive were unsolicited by me. I am enjoying peace and quite in the evening now with my family. I would like it to stay that way!
